Choosing Your Internet Package

Residential Internet from MTA is a secure, direct line. No sharing with your neighbors. Included are 4 email addresses, free modem, free access to ESPN 3.com, 24-hour tech support and easy online usage tracking. Minimum system requirements apply.

About Internet Speed

Many factors affect speed. Maximum speed capabilities may vary and are not guaranteed. Read how to maximize speeds at <http://www.mtasolutions.com/Internet/maximize.php>.

What Speed Do You Need?

INTERNET ACTIVITY	PACKAGE SPEED	TIME TO DOWNLOAD AN AVERAGE SONG
Light browsing, email checking	up to 512K	48 seconds
Low-quality video streaming, like YouTube	768K or 1M	24 seconds
DVD-quality streaming, heavier browsing	1M or 2M	6 seconds
HD-quality streaming, multiple users	5M or faster	less than 3 seconds

How Internet Usage Works

MTA automatically measures Internet usage on each account and rounds down to the nearest gigabyte. Shareware programs such as LimeWire or Kazaa can dramatically increase your usage. You are encouraged to check your Internet usage at <https://home.mtaonline.net/usage.cgi> and will be charged for exceeding the gigabytes in your package.

What Usage Should You Get?

INTERNET ACTIVITY	USAGE
Light browsing, checking email	less than 5GB
Casual browsing, low-quality video streaming, like YouTube	less than 10GB
Streaming 15 DVD-quality or 6 high-definition movies, normal browsing	25GB
Streaming 25 DVD-quality or 10 high-definition movies, normal browsing	40GB
Streaming 50 DVD-quality or 20 high-definition movies, normal browsing	70GB
Streaming 70 DVD-quality or 28 high-definition movies, normal browsing	100GB
